

## AWCI 2017 Annual Meeting

### Report of the 2016-2017 Convention Committee

Members: Charles Salomon, Anthony Rachevsky, John Polk, Paul Wadsworth, Peter Whittle, Bob Ockenden, Ernie Tope, Terry Kurdzionak-Chairman

The convention committee began its work shortly after the finish of the 2016 annual meeting. We had communication via email and conference calls. The topic which we spent the most time on was that of choosing a site for the 2017 convention. For a variety of reasons, the city we suggested was not chosen. We continued our work by taking part in a conference call with the Education committee with reference to the classes to be held at the 2017 convention.

As members of AWCI, these volunteers have had more than a passing interest in our organization. They were ready to share their time in discussing convention issues, looking at the options, and reaching consensus in the decision making process. The findings were shared with the Board of Directors by the chairman of the committee.

As with many committees, some members were more active than others and several of them have offered to be of assistance at the convention in Tampa in any capacity needed. I appreciate the interest and cooperation of all members of the committee and thank them for their participation.
