NAME: Dennis Warner CW21
Dennis Warner

TITLE: Member CW 21

IF ADDITIONAL SPACE IS REQUIRED, ATTACH ADDITIONAL SHEET

(A) Future Plans

November 2018 phase 2 of the use of the Watchmaker's Lathe. This will include the sharpening of gravers, the speed of the lathe and proper angles that will give the best cut. The student will cut square shoulders, angle cuts and finding centers.

Early spring: The disassembly, trouble shooting, re-assembly and lubrication of the Swiss pocket.

Early spring: Basic clock trouble shooting, disassembly, re-assembly of an American Strike clock.

Mid-year: Clock persons will do Reverse Painting on clock glass (day 1)
Dial Painting (day 2)

(B) Most Successful Projects

21 persons attended an 8 hour hands on program of watchmaker's lathe and graver maintenance. They each took apart a lathe and re-assembled. Then they properly lubricated. Many of the lathes had not been serviced in years if ever.

Our yearly Christmas Party always is a success. It is one time of year when the families are in attendance.

Once a year we have an all day auction (Held on Saturdays) We have a lot of fund and it is a fund raiser for the organization.

(C) Comments

At our monthly meetings there is a good turnout (usually 25-35 members, guests) before the meeting dinner.

It has always been important to the group to have a program after the business meeting.

(E) Proposals For the AWCI Board of Directors
