***Please Describe These Programs:** The MSLWCA has hosted 12 meetings and one course since the last annual convention. Programs included presentations by chapter members on unusual watches and clocks, dial foot repair, cutting wheels on a lathe, the bluing of hands and making gold and silver wire. We hosted one meeting which was purely chapter business in November. This meeting provided time for nomination and election of chapter officers, and

review and approval of the schedule of events for 2011. Finally, the MSLWCA hosted one social event, which is a tradition for our group. Details of these appear below. Our chapter also has three monthly programs, two of which began in 2009. These are presented by three of our highly experienced and most competent members. Our group receives a "Stone of the Month" from Mr. Herb Brune, a respected local jeweler for many years. Mr. Brune presents information about different gemstones, and how they are related to the watch and/or clock business. We have a "Watch of the Month" program by Mr. David Grayson, a gifted watchmaker with over 46 years of experience. Mr. Grayson presents a program dealing with a particular watch, how it is unique and different complications it may have. Mr. Gene Bertram presents a "Clock of the Month" from his varied and highly skilled clockmaking background. Our members look forward each month to the technical and sometimes unusual information presented in these quick, but valuable programs. We have also continued a program of "tidbits" from Jack Fuchs, a highly experienced clockmaker. Jack presents tips he has learned over the years, that can help our members save time and effort in their repairs.

Social Activities (please describe): **This included the annual summer bar-b-que. Of course, horology matters, business subjects and technical discussions of both watches and clocks were the main topics of social interaction.**

Civic Contributions: **Support of local association through the rental of facilities for both chapter meetings and education classes.**

Future Plans: **2012 will see an advanced Atmos clock repair class hosted by Robert Good, a former chapter president. This will be a two day class, and will cover Atmos clock repair, including subjects such as dis-assembly, cleaning, lubrication, and assembly of an Atmos movement. A hairspring manipulation and repair class for both watchmakers and clockmakers is scheduled, with emphasis on platform escapements for the clockmakers projecting to take the test for CC21. We also plan a hairspring repair and adjustment class to be co-hosted by Dave Grayson and Dan Mongeon. This will be a one day class with the intention of helping clockmakers and watchmakers prepare for certification programs.**

Most Successful Projects: **Several of our programs stand out in the year prior to this years convention. In particular, a course in dial foot repair given by Dan Mongeon provide many useful tips to our practicing watchmakers.**

Comments: **The MSTWCA has had an exciting year of technical programs, social events, and business related subjects presented by and for it's members since the 2010 annual convention. We continue in the fine tradition of horologists around the country, learning and passing on the art and craft of watchmaking and clockmaking to our varied members and the local community. We expect the future year to be filled with more programs of the same high quality education our members have come to expect.**
