

The Horological Times committee has reviewed all articles submitted for potential printing and has recommended acceptance, rejection or modification of the content as needed. All committee members were active in participating in the duties of this committee.

Ron Iverson

As an addendum to the committee activity report I would like to mention that there are exciting changes upcoming for the Horological Times. This committee and the Board have had the opportunity to review submissions for an updated layout for the HT and the availability of printing in full color. We look forward to these efforts coming to fruition in the belief they will greatly enhance the quality of the magazine.
