

Advancing the Art, Science and Business of Horology

Honor Awards Committee

Chairman – Michael Gainey, CC21

Glenn Gardner, CMW - Wes Door, CMW - John Bryant, CC21 - Bob Ockenden CMC

Report to the Board

The committee is currently awaiting nominations for the various awards that AWCI offers. The deadline for nominations is 90 days before the convention which would be around May 1st. The deadline to put our nominations before the board is 20 days later.

We currently have one strong nomination for the Fellow Award but the others are wide open. If any board member has suggestions for any of the three awards please forward them to me for the committee's consideration. Descriptions of two of the awards appear below.

When writing this report I noticed that in the by-laws there is actually no description for the Fellow Award. Having written the changes last year I was surprised that this was not noticed. I think we all have an idea of what this award stands for but it might be a good idea to put this in writing. The requirements would seem to be a combination of the two awards below but on a higher level. Would the board like to have a description written for the Fellow Award to be inserted into the Constitution and By-laws?

Outstanding Achievement Award

Will be awarded to recognize a watchmaker or clockmaker for outstanding personal achievements or accomplishments such as projects, inventions, innovative or creative ideas that meet a need or a recognized business success.

Meritorious Service Awards

Will be awarded to a person who has made significant contribution to AWCI and its members.

Respectfully,
Michael Gainey, CC21
