

Constitution & bylaws committee report 8/2014

The committee has been called upon to do a cleanup, revision and update of the Constitution, Bylaws, and policy manual. We met at AWCI on November 8th, 9th and left on the 10th 2013. During this time changes were proposed for all three documents. The changes to the constitution were voted on by the board of directors and sent out to the members twice and the end result was that they all passed and are now in effect. The changes to the bylaws and the policy manual are still being reviewed by the board. Some items were voted on by the board and we had a conference call on May 31st 2014 for some of the changes brought forth from the board. When the board approves additional changes they will need to be reviewed by our committee and then they can go to the board for final approval. This may happen at the annual meeting at which this report will be made.

Respectfully submitted
