

The Education Committee Report

August 21, 2016

After several meetings this year, the Education Committee developed the needed requirements and procedures for 2 positions with AWCI and sent them forward to BOD for approval. They include a motion for the hiring of a new Chief Examine as well as the development and proposal for a new clock position--Clock Program Director, and laid the ground work to begin the redevelopment of the CC21 program and its related parts. We are now waiting for the candidate responses so that the committee can review the resumes and begin the process to bring these new people on line.

Respectfully submitted,

Fred White and Jerry Faier, Co-chairs of the AWCI Education Committee
